

**Berkshire Landscapes**  
*aquatic and landscape specialists*

## We make gardens gorgeous...

And we'd love to transform yours for you. Whether it's large or small, needs major surgery or just a few subtle changes, we have the experience and skills to help you make the most of your outdoor space.

It costs nothing to talk!

Even if you're not sure exactly what you want at present, we're happy to visit you and talk about the possibilities, so why not call Richard Fitzsimons now to arrange an exploratory discussion?

Tel: 0118 961 1361

Mobile: 07815 875 607 (Richard)

## Specialist's in Koi pond construction

We have great expertise in designing, constructing and equipping Koi ponds, fully understanding the needs of members from The British Koi - Keepers' Society (B.K.K.S.).

Our extensive knowledge and experience of incorporating the specialised requirements for successful Koi keeping ensure that your pond will be properly constructed, to the correct depth, with suitable edging and an appropriate filtration system.

We have included some general information below but when we discuss your requirements on site we'll go carefully through every aspect of the design, construction and equipment with you, to ensure that your pond fully meets your needs and expectations. And of course, we'll do our best to stretch your budget as far as possible so that you can have a Koi pond to be proud of!

## Expert's in Garden magic

Because we specialise in landscape gardening, we have a vast 'knowledge-bank' of practical solutions and inspired ideas. We know what works, and just as importantly, we know what doesn't.
